Navigating mental health and substance use disorder systems can be difficult for anyone, and especially daunting for people living with mental illness. It is an **OVERWHELMING PROCESS** of contacting several different agencies to access different levels of care.

People Incorporated is geared toward **PROVIDING COMPREHENSIVE, COORDINATED AND UNIFIED CARE** to **children and adults with complex mental and chemical health conditions**.

People Incorporated created **CENTRAL ACCESS – a system** to serve clients through live, answered calls that can assess and resource for the clients needs. This **innovative solution takes the anxiety away** and gives mental health workers and clients alike, a **“BIG PICTURE”** view of a client’s needs and care pathway, **creating better context for decision-making and more sustainable solutions to care**.

We are committed to providing mental health services to those who are **most vulnerable and in need of care** and we will continue to **GO TO THEM WHERE THEY ARE MOST COMFORTABLE BEING SERVED**, and through our collaboration with community partners to identify individuals in need. People Incorporated has essential partnerships with professionals in the community to do just that – metro transit drivers, librarians, public housing, hospitals, homeless shelters and law enforcement – to name a few.

Our goal is to create a **CLIENT-CENTERED PROCESS** of **connecting people in need, wherever they are, with the care they seek**.

Whether you are an individual seeking help or a mental health practitioner who wants to refer a client, our Central Access team of navigators can connect you to the appropriate service in our mental health care continuum. We are a 501(c)3 tax-exempt status non-profit organization that serves individuals with mental illness in the Minneapolis and St. Paul, Minnesota area.

Bed Availability

If you are in need of immediate mental health support, we provide a listing of immediate bed openings for our residential mental health services within People Incorporated’s continuum of care on our website (peopleincorporated.org/open-beds) that is updated 2-3 times daily.
