

# CHILDREN'S TARGETED CASE MANAGEMENT

## *Program Overview*

Ensuring individuals under 18 years of age gain access to medical, social, educational, vocational, and other necessary services connected to the person's mental health needs.

## *Program Goals*

- Assess the child's needs, goals, and the impact of mental health needs on their everyday life
- Monitor the effectiveness of the resources, supports, and services being utilized
- Discuss the progress made toward goals and recovery

## *Program Impact*

- Serve around 200 families per year
- Refer and link to resources, supports and services, including: individual and family therapists, primary care physicians, individual and/or family Children's Therapeutic Services and Supports (CTSS) skills workers, individualized education plan (IEP) evaluation, health insurance, and psychiatrists
